

BOTANY RAIL DUPLICATION

October 2021

WHAT ARE WE DOING?

John Holland will be carrying out works on behalf of ARTC in the rail corridor near you, at locations in Mascot and Botany.

The works are required as part of early investigations for the Botany Rail Duplication (including Botany Yard Signalling). John Holland has been awarded the contract to design and construct the project, which will duplicate the remaining 2.9km section of single line track to Port Botany. This will allow freight to be moved more efficiently and effectively.

UPCOMING WORK

WHEN: Monday to Friday (7am to 6pm) and Saturday (8am to 1pm), 1-31 October

WHAT: The following activities will be undertaken during standard construction hours:

- Survey work along the project alignment in the rail corridor
- Utility, potholing and geotechnical investigation work to locate services along the project alignment in the rail corridor
- Site inspections along the project alignment in the rail corridor
- Dilapidation surveys both internal and external along the project alignment
- General Holmes Drive site establishment set up
- Contamination investigation work along the project alignment in the rail corridor. Any materials containing asbestos which are located in the rail corridor will be removed in line with Environmental Protection Authority (EPA) guidelines. This would include removal by a licenced contractor with strict safety measures, including air monitoring.

The work in your area will not be continuous. The majority of work will take place during standard construction hours, which are: Monday to Friday, 7am to 6pm, and 8am to 1pm Saturdays.

Due to the nature of construction activities and for the safety of workers, some work will occur outside standard construction hours. Every effort will be made to keep noisy works to a minimum and reduce impacts to the community wherever possible.

Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for transporting oversized vehicles.

If you have any comments or questions about planned work in your area, including out-of-hours work, please email botanyduplication@jhg.com.au.

OUT OF HOURS WORK

WHEN: Saturday 9 October (6am to 6pm)

WHAT: The following activities will be undertaken:

- Preliminary Qantas Drive pedestrian footbridge removal work (see diagram on next page).

WHEN: Saturday 16 October (6am to 7pm) and Sunday 17 October (6am to 7pm)

WHAT: The following activities will be undertaken:

- Removal of Qantas Drive pedestrian footbridge (see diagram on next page)
- Geotechnical investigation work
- Contamination investigation work
- Track survey work
- Utility investigation and potholing work.

Traffic control will be in place to manage vehicle and pedestrian movements.

SITE FACILITIES: Site sheds and facilities will be located adjacent the rail corridor at Botany Road, near Southern Cross Drive and adjacent to General Holmes Drive during the works (see diagram on next page).

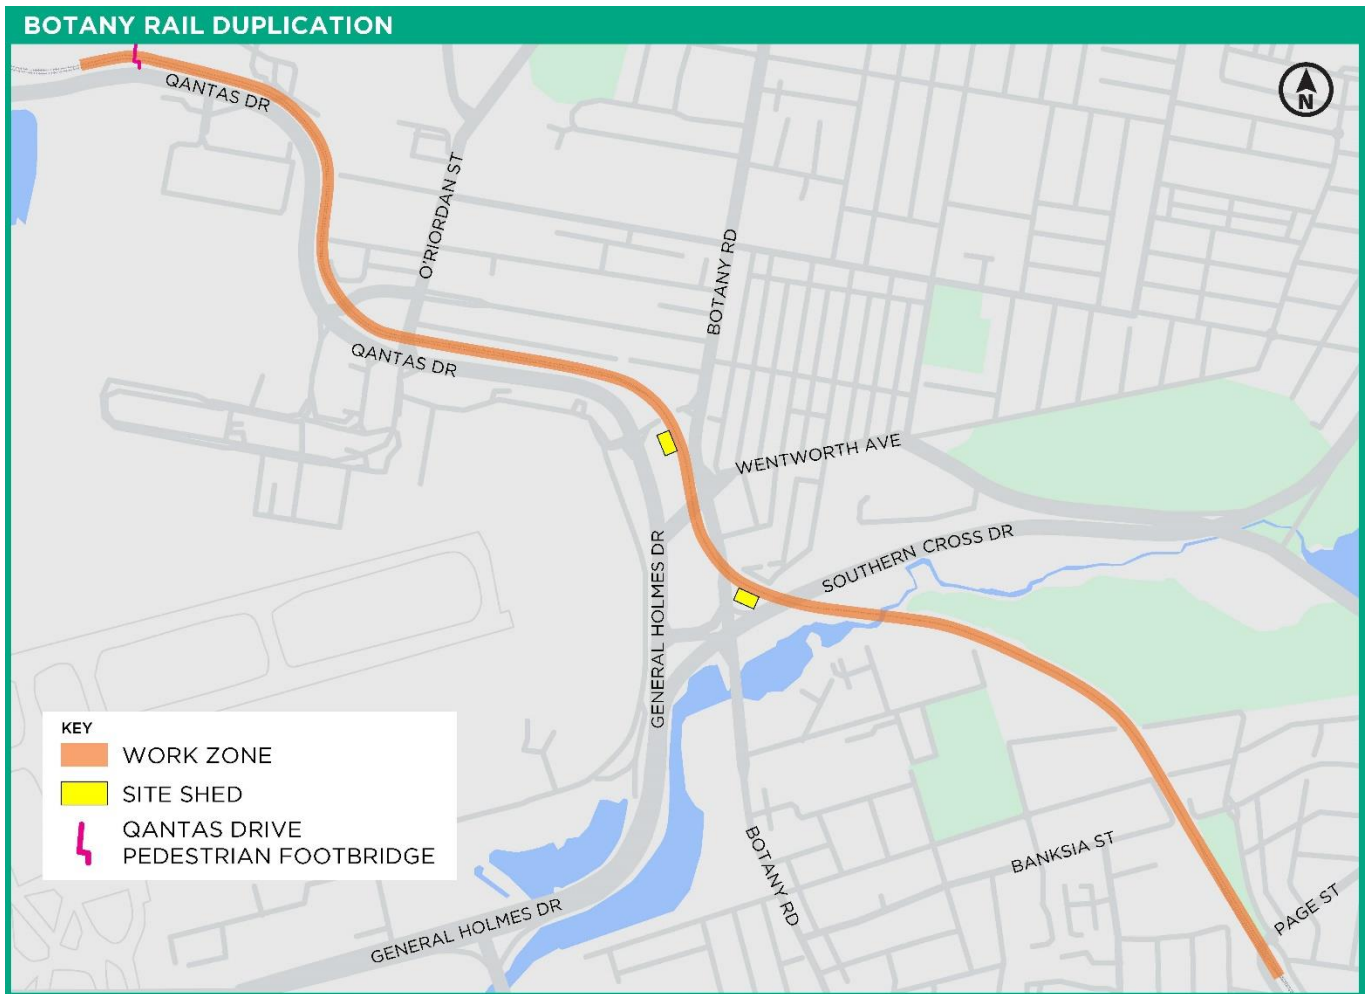

EQUIPMENT: Excavators, mobile cranes, vacuum trucks, power hand tools, surveying equipment, geotechnical investigation rigs, construction vehicles, traffic control signs and barriers.

TRAFFIC: Vehicles will access the rail corridor via existing rail corridor access gates at Botany Road and along various project alignment access gates in the rail corridor. While as many vehicles as possible will be located inside the rail corridor during the works, some vehicles may be parked in the street close to these locations.

COVID: All teams will follow the relevant safety protocols and Government guidelines relating to COVID.

Thank you for your patience while this work takes place. For further information about the work or to provide feedback, please contact ARTC Enviroline on 1300 550 402 or email botanyduplication@jhg.com.au.

WORK LOCATION

This document contains important information about road projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on 131 450 and ask them to call the project team on 1300 550 402. The interpreter will then assist you with translation.
