

BOTANY RAIL DUPLICATION

May 2022

Reference: BRD13

WHAT ARE WE DOING?

John Holland will be carrying out works on behalf of ARTC near you, in and near the rail corridor at locations in Mascot and Botany. John Holland is contracted to design and construct the project, which will duplicate the remaining 2.9km section of single line track to Port Botany. This will allow freight to be moved more efficiently and effectively.

UPCOMING WORK

WHEN: Monday to Friday (7am to 6pm) and Saturday (8am to 6pm), 1-31 May

WHAT: The following activities will take place during standard approved construction hours:

- Site inspections, signal investigations and surveying along the project alignment in the rail corridor
- Utility, potholing and geotechnical investigation in the rail corridor
- Vegetation and earthworks at the Mill Pond and Banksia compounds
- Vegetation clearance along project alignment
- Retaining wall installation along the project alignment
- Earthworks, hardstand and general concrete work along the project alignment
- Site access establishment along the project alignment
- Fencing and gate installation/removal work along project alignment
- Removing a section of advertising truss sign adjacent to O’Riordan Street bridge
- Piling and construction of foundations at O’Riordan Street and Robey Street bridges
- Mill Pond site shed set up and driveway installation
- Temporary drainage work along project alignment
- Removal of disused rail siding at Kelloggs, Botany
- Utility protection work along the project alignment
- Cable service relocation and cable pulling along the project alignment
- Utility excavation and relocation along the project alignment.

The work in your area will not be continuous. The majority of work will take place during standard approved construction hours, which are: Monday to Friday, 7am to 6pm, and 8am to 6pm Saturdays.

Due to the nature of construction activities and for the safety of workers, some work will occur outside standard construction hours. Every effort will be made to keep noisy works to a minimum and reduce impacts to the community wherever possible.

Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for transporting oversized vehicles.

If you have any comments or questions about planned work in your area, including out-of-hours work, please email botanyduplication@jhg.com.au.

OUT OF HOURS WORK

WHEN: Weekend work from 9.30pm Friday 6 May to 6am Monday 9 May

WHAT: The following activities will take place:

- Piling work at O’Riordan and Robey Street bridges
- Cable service relocation and signalling work between General Holmes Drive compound and Banksia compound
- Track cutting work at Banksia footbridge.

WHEN: Nightworks 6pm to 6am (weeknights) and 1pm to 6pm (Saturdays), 1-31 May

WHAT: The following activities will take place:

- Service route installation adjacent to Qantas Drive, inside rail corridor (Saturday 30 April)
- Piling at O’Riordan and Robey Street bridges
- Cable service relocation and signalling work along the project alignment
- Site shed set up at Mill Pond compound
- Retaining wall construction along project alignment
- Materials deliveries.

The out of hours work will not be continuous. Residents will be notified at least five days before out of hours work in their area. Every effort will be made to keep noise levels to a minimum and works will be monitored to make sure noise levels are being managed effectively. Equipment will be turned off when not in use and where required, and noise blankets will be set up around work sites when necessary.

SITE ESTABLISHMENT: Residents will be advised of any out of hours work or access at the Banksia Street compound. Verbal communication will be kept to a minimum on site and machinery will be turned off when not in use. Installation of a shed will occur at the Mill Pond compound. Locations at Botany Road and General Holmes Drive will be used as the main site compounds.

EQUIPMENT: Excavators, piling rig, mobile cranes, grader, vacuum trucks, concrete pump truck, elevated work platform, front end loader, roller-compactors, power hand tools, surveying equipment, geotechnical investigation rigs, construction vehicles, lighting towers, work trucks and traffic control signs and barriers.

TRAFFIC: Vehicles will access the rail corridor via existing rail corridor access gates at Botany Road and along various project alignment access gates in the rail corridor. While most vehicles will be located inside the rail corridor during the works, some vehicles may be parked in the street close to these locations.

Lane closures on Botany Road, Southern Cross Drive, Robey Street, O’Riordan Street, Banksia Road, Mill Pond Road and McBurney Avenue may be required to facilitate site establishment set up, driveway access, borehole, piling and test pit night work.

COVID: All teams will follow the relevant safety protocols and Government guidelines relating to COVID.

Translation and Interpretation Services

Please call 131 450 and ask them to call the project team on 1300 550 402.
