

BOTANY RAIL DUPLICATION

14 October 2023

Reference: BRD42

WEEKEND NIGHT WORK (21 OCTOBER AND 22 OCTOBER)

Weekend track work will be carried out in your area during a scheduled track closure. We have limited opportunities throughout the year when we can safely access the rail track and some work has to take place during pre-planned track closures to ensure the safety of workers.

Construction activities are carefully planned to minimise impacts on the community. Please see the map on the next page for the location of works.

WHEN: Weekend track closure, from 2.00am Saturday 21 October to 2am Monday 23 October

WHAT: The following activities will take place

LOCATION	WORK
Mascot	<ul style="list-style-type: none"> Concrete slab installation near General Holmes Drive compound Signalling and cable installation work between General Holmes Drive compound and O’Riordan Street Track work (including welding and grinding) and drainage works near Baxter Road Tamping (compacting the rock layer under the tracks) alongside Baxter Road and Cooks River Loop (near King Street) Retaining wall construction near Robey Street.
Botany/ Pagewood/ Banksmeadow	<ul style="list-style-type: none"> Earthworks and light pole installation near Ocean Street Delivery of materials to Banksia Street compound Movement of tamping machine on the rail line from Banksia Street compound to Baxter Road Signalling and cable installation work between Botany Road and Banksia Street
Project alignment	<ul style="list-style-type: none"> Signalling, cable installation and track work Rail, machinery and oversize plant materials deliveries Excavated materials transport/removal and deliveries

Equipment for this work will include excavators, drum rollers, tampers, vacuum truck, compactor, dump truck, handheld impact wrenches, concrete pump, welding tools, rail saws, rail turnout machine, front end loader, cranes, hand tools and construction vehicles.

Various measures are taken to keep noise to a minimum, such as scheduling noisier works earlier in the night where possible and installing noise blankets. **The work in your area will not be continuous and every effort will be made to keep noisy work to a minimum and reduce impacts to the community where possible.**

The **Noise and Vibration fact sheet** located at botanyduplication.com.au identifies construction activities and their associated noise levels in decibels (dBA). The noise levels associated with the track works have been predicted between **67dBA and 88dBA** and as a result, indicates that there will be noise impacts in your area. Directly affected residents will be provided with respite voucher prior to the works.

Thank you for your patience while this work takes place. For further information about the work or to provide feedback, please contact **ARTC Enviroline on 1300 550 402, email: botanyduplication@jhg.com.au or write to: Level 3, 65 Pirrama Road, Pyrmont NSW 2009** and quote reference number **BRD42**.

If you have any comments or questions about planned work in your area, including out-of-hours work, please email botanyduplication@jhg.com.au.
