

RAIL WORK NEAR YOU

We're doing rail work in your area soon.

Dear Neighbour,

The Australian Rail Track Corporation (ARTC) will soon be working in the rail corridor near you to investigate the location of underground services. The investigations are required to carry out work later in the year to relocate trackside infrastructure and assets. The work involves use of heavy machinery to safely and efficiently locate utilities under the rail line. The primary area of work is shown overleaf.

We have limited opportunities throughout the year to access this area for work due to the number of rail services that travel in the rail corridor. You may experience noisy work at times including outside of standard work hours, however controls will be in place to manage potential noise impact.

Thank you for your patience while this work is undertaken. For environmental issues or further information about the work, please contact Enviroline on 1300 550 402 or Enviroline@artc.com.au

WHERE

Within the rail corridor between Cabramatta Station and Warwick Farm Station

WHEN

From:

6am – 6pm

Saturday 9th May 2020

To:

6am – 6pm

Sunday 10th May 2020
