

# CABRAMATTA LOOP PROJECT

June 2022

CLP\_12

The Cabramatta Loop Project will increase rail freight capacity on the Southern Sydney Freight Line by constructing a new 1.65km section of track, allowing freight trains travelling in either direction to pass each other. Fulton Hogan is designing and constructing the project for ARTC.

## WHAT ARE WE DOING?

### LOCAL ROADS CLOSED

We need to temporarily close small sections of road at two Cabramatta intersections, to install a new water main. The intersections at **Broomfield Street and Boundary Lane**, and **Broomfield Street and Junction Street**, will be closed in late June 2022 (subject to the weather).

To minimise the disruption to road users the intersection closures will occur at different times, so only one road will be closed at a time. Each closure will be for a period of 48 hours. Dates of each closure will be displayed on signs around the work area closer to the time, as the work is weather dependent. Detours will be in place during the closures to allow access to Boundary Lane and Junction Road via National Street. A map of the detours can be found **overleaf**.

Work activities will include excavating, hammering, installing new water mains, concrete pouring, and backfilling.

These changes are in addition to the closure of a small section of road under the rail line on **Sussex Street for up to four weeks**. This work, detailed in a previous community notification, has been rescheduled from May to June 2022. Works will include piling for the new Sussex Street underbridge and underground service upgrades. Dates of the closure will be displayed on signs around the project closer to the start of work. More information is available on our website [cabramattaloop.com.au](http://cabramattaloop.com.au).

### NEW TEMPORARY BRIDGE OVER CABRAMATTA CREEK

We need to temporarily close the pedestrian bridge over Cabramatta Creek, as part of our works to construct new rail bridges. To maintain access along the shared path, we will be building a new temporary bridge for shared path users. This new bridge will be open in early June, weather dependent.

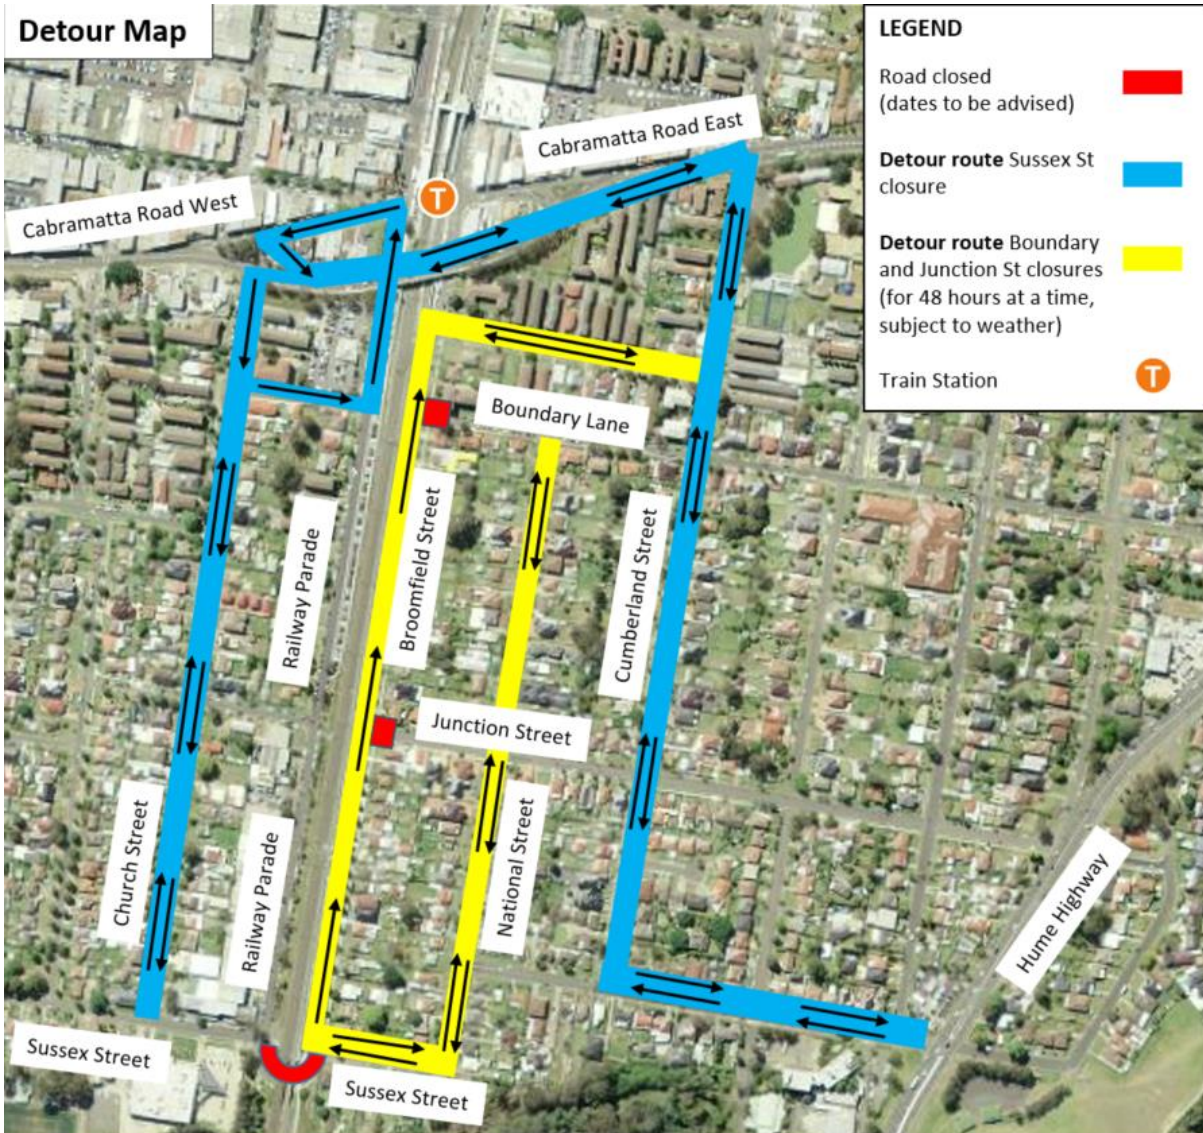

This temporary bridge needs to be built because the current shared pathway bridge is close to where we will locate heavy equipment to construct the new bridge supports. Signs will be placed at either end of the shared path, near Sussex Street in Cabramatta and Station Street in Warwick Farm, to direct you through the area.

## HOW MIGHT THIS WORK AFFECT YOU?

**The majority of work will take place during standard construction hours, which are: Monday to Friday, 7am to 6pm, and 8am to 1pm Saturdays.** Every effort will be made to keep noisy works to a minimum and reduce impacts to the community wherever possible. Equipment will be turned off when not in use and, if required, noise blankets will be set up around work sites.

Please keep to the speed limits and follow road signs or traffic controllers' directions. Information about any further traffic changes and works will be available on the project website [cabramattaloop.com.au](http://cabramattaloop.com.au) (visit the 'Interactive Map' page). You can also call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App for the latest traffic updates.
