

CABRAMATTA LOOP PROJECT

August 2022

CLP_016

The Cabramatta Loop Project will increase rail freight capacity on the Southern Sydney Freight Line by constructing a new 1.65km section of track, allowing freight trains travelling in either direction to pass each other. Fulton Hogan is designing and constructing the Cabramatta Loop Project for ARTC.

WHAT ARE WE DOING?

Our construction program is progressing, with works taking place at several locations in and around the rail corridor in Cabramatta and Warwick Farm. This notification provides you with information about out of hours work and changes to vehicle, cycle and pedestrian access.

BROOMFIELD STREET

We are planning to begin work on the western side of Broomfield Street from **24 August 2022**, weather permitting. The first phase of this work will include the installation of the stormwater drainage, which is expected to take approximately two months.

When this work is complete, the team will start piling and construction of the retaining wall followed by the relocation of the noise wall. We expect all of this work to be completed by mid-2023. During this time, there will be some changes to the work area which will impact pedestrian, cyclist and vehicle traffic.

TRAFFIC CHANGES TO BROOMFIELD STREET

There will be **several separate phases** of traffic set up in order to carry out this work safely. The initial phase will be a **left and right turn onto Broomfield Street from Junction Street**, with one way traffic in either direction to the left and right of the intersection. This phase will be in place for approximately one month.

Phase two, scheduled for September, this same arrangement will be moved to **Boundary Lane** for motorists turning left and right onto Broomfield Street, with one way traffic in either direction to the left and right of the intersection. There will be no right turn permitted from **Sussex Street onto Broomfield Street** during this work.

Access for cyclists will be managed by traffic control and barriers on site. Cyclists may be required to dismount in certain areas of Broomfield Street or use alternative routes via Sussex Street and National Street.

On **2-5 September 2022**, between **10.30pm Friday** and **2am Monday**, there will be a lane closure on Broomfield Street to allow for the safe set up of a crane during our planned weekend work inside the rail corridor.

Please pay close attention to road signage and follow the directions of traffic controllers to ensure everybody's safety.

A map showing details of the work locations and traffic changes can be found on the third page of this letter.

To provide feedback about these works, or to let us know your preferences for working times, durations or respite measures, please call our 24-hour Enviroline on 1300 550 402, email cabramattaloop@fultonhogan.com.au or mail PO BOX 6099, Alexandria NSW.

OUT OF HOURS WORK IN YOUR AREA

We are planning to **work outside normal construction hours** at the Sussex Street underpass in preparation for construction of the new rail bridge, as part of the Cabramatta Loop Project.

Until further notice, we are planning to work extended hours every **Saturday from 8am to 6pm**, weather permitting, in order to carry out this work safely and reduce the duration of any disruption to the community. Directly impacted residents will be notified of dates and details of this work as required.

This work will include piling activities using heavy machinery such as a piling rig, cranes, elevated work platforms as well as excavators, trucks, welding equipment and handheld tools.

SUSSEX STREET UNDERPASS

A small section of road under the rail line on Sussex Street was temporarily closed from 11 July 2022, to allow us to complete our work safely and efficiently. Works will include piling for the new Sussex Street underbridge and underground service upgrades. This section of Sussex Street is scheduled to temporarily re-open on 24 August for the Moon Festival, which is taking place in Cabramatta on 28 August. A further closure of this section of Sussex Street will be required in late August or September to ensure the safe completion of the piling work for the new Sussex Street rail bridge. The community will be kept informed about the progress of this work and the scheduled closing and re-opening dates. Please follow the directions of traffic controllers in this area.

HOW MIGHT THIS WORK AFFECT YOU?

This work may be noisy and possibly disruptive however every effort will be made to keep noisy works to a minimum and reduce impacts to the community wherever possible. Some of the measures we will implement include noise monitoring and using noise mitigation devices on equipment.

PEDESTRIAN ACCESS WARWICK FARM TRAIN STATION

We will be temporarily closing the eastern pedestrian staircase to Warwick Farm station for up to **four weeks in early to mid-September**, weather permitting, to allow the team to work safely on the construction of the signals structure. Pedestrian access to the eastern train platforms will be available via the western staircase. Signs will direct commuters to the detour pedestrian route during this work.

Please refer to the diagram on the next page for more information.

SHARED PATH – CABRAMATTA CREEK

There will be temporary disruptions on the shared path at Cabramatta Creek for short periods during the day from **September to November**, to allow safe set up of heavy machinery for work on the new Sussex Street bridge at Cabramatta Creek.

We may also need to temporarily close the footpath for **48 hours in November**. Signs with details of work location and timing will be placed around the project area before this work begins. Please refer to the image on the next page for more information.

Due to the frequent wet weather we are experiencing, the project area is subject to flooding and the timing of these works may change. Please contact the project team if you have any concerns. We appreciate your continued patience and understanding while we carry out this important work.

CONTACT US

As part of the ongoing communication with the community we are committed to doing our bit for the environment by finding ways to provide information to you while creating less paper waste. If you would prefer to receive notifications via text message or email, please send us your name and contact information by phone on 1300 550 402, email cabramattaloop@fultonhogan.com.au, or mail PO BOX 6099, Alexandria NSW.

Come see us at the Cabramatta Moon Festival!

The Cabramatta Loop Project team will be at the Cabramatta Moon Festival to answer questions about the project! The Festival is running from 11am to 8pm, Sunday 28 August 2022 in Cabramatta's CBD.

The festival is returning with a jam-packed day of entertainment, food and market stalls, traditional lion dance, musical performances, carnival games, evening fireworks and plenty of family fun.

For more information about the festival, please visit www.fairfieldcity.nsw.gov.au and follow the Moon Festival links.
