

CABRAMATTA LOOP PROJECT

JULY 2023

CLP_36

The Cabramatta Loop Project will increase rail freight capacity on the Southern Sydney Freight Line by constructing a new 1.65km section of track, allowing freight trains travelling in either direction to pass each other. Fulton Hogan is designing and constructing the project for ARTC.

TRAFFIC CHANGES AND ROAD WORK ON BROOMFIELD STREET

There will be traffic and parking changes on Broomfield Street, Cabramatta (between Junction Street to Sussex Street) from **Monday 17 July to 31 October 2023**. Pedestrians and on-street parking will be moved to the western side of Broomfield Street (next to the rail line) so work can start on the eastern side of the road (next to the houses). A map of the work areas and estimated timeframe of construction activities is shown on page 2 of this notification.

The work will involve lowering sewer pits that are currently higher than the road level, driveway replacement and footpath work, new landscape areas including tree planting and making final touches to kerbs. These activities will be done during **standard construction hours which are 7am to 6pm Monday to Friday, and 8am to 1pm Saturdays**.

HOW MIGHT THIS WORK AFFECT YOU?

Due to the nature of work, there will be times where **vehicle access to some Broomfield Street properties will be restricted during the driveway replacement activities**. Our team will speak with residents where their driveway will be affected.

The equipment to be used will include construction vehicles, concrete pumps and trucks, excavators, road hammers, vacuum trucks, traffic controls and hand tools.

Some of this work may be noisy and disruptive, however every effort will be made to keep noisy works to a minimum and reduce impacts to the community wherever possible. Some of the measures we may use include turning off equipment when not in use and using non-tonal ('white noise') reversing alarms on vehicles. The **Noise and Vibration fact sheet** located on our website **cabramattaloop.com.au** identifies construction activities and their associated noise levels in decibels (dBA). It also contains information about how we assess and manage noise and vibration impacts.

CONTACT US

For more information about these works or the Cabramatta Loop Project, you can contact our team by phone on **1300 550 402**, email **cabramattaloop@fultonhogan.com.au**, or mail **PO BOX 6099, Alexandria NSW**.

WORK LOCATION

Translation and Interpretation Services

Please call 131 450 and ask them to call the project team on 1300 550 402.

131 450

Vietnamese
 Dịch vụ Thông Phiên Dịch – vui lòng gọi số 131 450 và nhờ họ gọi cho toán phụ trách dự án qua số 1300 550 402.

Chinese Simplified
 翻译与传译服务——请致电131 450，并请他们接通项目团队电话1300 550 402。

Arabic
 خدمة الترجمة التحريرية والشفهية - اتصل على الرقم 131 450 واطلب منهم الاتصال بفريق المشروع على الرقم 1300 550 402.
