

CABRAMATTA LOOP PROJECT

16 August 2023

CLP_38

The Cabramatta Loop Project will increase rail freight capacity on the Southern Sydney Freight Line by constructing a new 1.65km section of track, allowing freight trains travelling in either direction to pass each other. Fulton Hogan is designing and constructing the Cabramatta Loop Project for ARTC.

RAIL CORRIDOR OUT OF HOURS WEEKEND WORK

We have limited opportunities throughout the year when we can access the rail corridor to work near the tracks. There is a pre-planned railway track closure this month, and the Cabramatta Loop Project will work from **1pm Saturday 26 August to 10pm Sunday 27 August 2023**.

We will be working between Villawood and Casula stations. Maps showing the work locations can be found on the next pages. Construction activities will include earthworks, drainage and demolition works, noise panel removal, signalling works and cable pulling. The team will also work during **standard construction hours, which are 7am to 6pm Monday to Friday, and Saturdays 8am to 1pm**.

HOW MIGHT THIS WORK AFFECT YOU?

Equipment used will include excavators, vacuum trucks, traffic control signs and barriers, rollers, power hand tools, surveying equipment, construction vehicles, lighting towers, pumps, generators, hammers, sawcutters and work trucks.

Some of this work may be noisy and disruptive, however every effort will be made to keep noisy works to a minimum and reduce impacts to the community wherever possible. Some of the measures we will use include turning off equipment when not in use, setting up noise blankets around work sites where possible and using non-tonal ('white noise') reversing alarms on vehicles. Works will be monitored to make sure noise levels are being managed effectively. **You can find out more information about noise and vibration in the fact sheet on our website cabramattaloop.com.au.**

To provide feedback about these works, working times, durations or respite measures, **please call our 24-hour Enviroline on 1300 550 402, email cabramattaloop@fultonhogan.com.au or mail PO BOX 6099, Alexandria NSW.**

COMMUNITY INFORMATION SESSION

The Cabramatta Loop Project team invites you to drop in and chat to the project team on **Thursday 31 August 2023 between 5.30pm and 7pm at Cabramatta Rugby Leagues Club**.

Cabramatta Rugby League Club is located at 24 Sussex Street, Cabramatta.

PROPOSED UPCOMING OUT OF HOURS WORK SCHEDULE

The following table provides indicative information about the works currently planned outside standard construction hours. The timing or type of work may change due to weather or other unforeseen circumstances. Further information about these works will be provided in the project’s community notifications at least five days before the works take place.

NOTE: We may need to work outside standard construction hours up to 8 nights and 8 Saturday afternoons per month for work inside the rail corridor, 8 nights per month and 2 additional Saturday afternoons per month for works outside the rail corridor, at each location.

Timings for road closures in the table below are approximate and further information will be provided on electronic message signs in the area, ahead of the closures. Please pay attention to signage and

	Broomfield Street (between Boundary Lane and Sussex Street), and surrounding streets	Jacque Osmond Reserve	Rail corridor works from Liverpool to Casula
September 2023	<ul style="list-style-type: none"> Road closures for up to 10 days between 12 September to 30 September 	<ul style="list-style-type: none"> Earthworks, drainage and track formation Track and signalling works 	<ul style="list-style-type: none"> Signalling work Drainage and earthworks Track laying and works
October 2023	<ul style="list-style-type: none"> Road closures for up to 3 days between 1 October and 15 October Road closures for up to 8 days and 5 nights between 9 to 30 October 	<ul style="list-style-type: none"> Earthworks, drainage and track formation Track and signalling works 	<ul style="list-style-type: none"> Signalling work Drainage and earthworks Track laying and works
November 2023	<ul style="list-style-type: none"> Road closures for crane used during 9 to 12 November rail corridor weekend closure. 	<ul style="list-style-type: none"> Earthworks, drainage and track formation Track and signalling works 	<ul style="list-style-type: none"> Signalling work Drainage and earthworks Track laying and works

BROOMFIELD STREET NOISE WALL INSTALLATION (DAY WORK) UPDATE

The old retaining wall will be removed inside the rail corridor.

The noise wall crew is aiming to complete the new retaining wall and noise wall panel installation on Broomfield Street:

- between Sussex Street and Junction Street by mid-late September
- between Junction Street and Bridge Street by late September/early October.

We will need to do minor work on the panels after they are installed. Areas of the shared path and on-street parking lane will be occupied by the workers and their equipment during minor work activities like patching and painting.
