

CABRAMATTA LOOP PROJECT

SEPTEMBER 2023

CLP_41

The Cabramatta Loop Project will increase rail freight capacity on the Southern Sydney Freight Line by constructing a new 1.65km section of track, allowing freight trains travelling in either direction to pass each other. Fulton Hogan is designing and constructing the project for ARTC.

TRAFFIC CHANGES AND ROAD WORK ON BROOMFIELD STREET, CABRAMATTA

Traffic changes and road work on Broomfield Street are planned for mid-September and October 2023.

Pedestrian and on-street parking (between Bridge Street and Junction Street) will be moved to the western side of the street (next to the rail line) so work can start on the eastern side of the road (next to the houses) from **Monday 18 September to 31 October 2023**.

A map of the work areas and estimated timeframe of construction activities is shown on page 2 of this notification.

The work will involve road and lane closures, lowering sewer pits that are currently higher than the road level, road resurfacing, drainage work, driveway replacement and footpath work, new landscape areas including tree planting and making final touches to kerbs. These activities will be done during **standard construction hours which are 7am to 6pm Monday to Friday, and 8am to 1pm Saturdays**.

DETAILS OF TEMPORARY ROAD CLOSURES

Broomfield Street, Cabramatta will be temporarily closed to motorists on five occasions between late September and November 2023 to install new underground services, resurface the road and set up a crane for weekend rail track work. Due to the nature of construction activities, exact timing of the closure will be confirmed closer to the work taking place – please follow road signs, the speed limit and the directions of traffic controllers. Please refer to the table on page 2 for work locations.

HOW MIGHT THIS WORK AFFECT YOU?

Due to the nature of work, there will be times where **vehicle access to some Broomfield Street properties will be restricted during the driveway replacement activities**. Our team will speak with residents where their driveway will be affected.

The equipment to be used will include construction vehicles, concrete pumps and trucks, excavators, rollers, road and concrete hammers, vacuum trucks, traffic controls and hand tools.

Some of this work may be noisy and disruptive, however every effort will be made to keep noisy works to a minimum and reduce impacts to the community wherever possible. Some of the measures we may use include turning off equipment when not in use and using non-tonal ('white noise') reversing alarms on vehicles. The **Noise and Vibration Fact Sheet** located on our website cabramattaloop.com.au identifies construction activities and their associated noise levels in decibels (dBA). It also contains information about how we assess and manage noise and vibration impacts.

WORK LOCATIONS

UPCOMING ROAD CLOSURES

Broomfield Street (between Bridge Street and Sussex Street), and surrounding streets	
October and November 2023	<ul style="list-style-type: none"> Broomfield Street traffic closure for up to 8 days and 5 nights between 9 to 30 October to carry road resurfacing work Broomfield Street traffic closures for crane used during 9 to 12 November rail corridor weekend closure.
