

CABRAMATTA LOOP PROJECT

October 2023

CLP_45

The Cabramatta Loop Project will increase rail freight capacity on the Southern Sydney Freight Line by constructing a new 1.65km section of track, allowing freight trains travelling in either direction to pass each other. Fulton Hogan is designing and constructing the project for ARTC.

TEMPORARY LOADING AREA NEAR WARWICK FARM STATION

A temporary loading area will be set up on Warwick Street, Warwick Farm on **Monday 23 October** to allow large vehicles to park near the rail corridor and load building materials into the substation worksite (see map on the next page). This may require short, temporary closures of the pedestrian steps from Warwick Street to the Hume Highway.

The work will take place during standard construction hours, which are **7am to 6pm Monday to Friday** and **8am to 1pm Saturdays**.

To protect the safety of the community and our workers, we will have traffic controllers in place to manage the pedestrian and vehicle movements around the temporary loading area.

HOW MIGHT THIS WORK AFFECT YOU?

The work will include long vehicle deliveries, crane lifts, steel fixing and installation of a prefabricated building.

Some of this work may be noisy and disruptive, however every effort will be made to keep noise to a minimum and reduce impacts to the community wherever possible. Noise reducing measures include turning off equipment when not in use and using non-tonal reversing alarms on vehicles.
