

# NARRABRI TO TURRAWAN LINE UPGRADE

27 February 2023

## WHAT ARE WE DOING?

The Narrabri to Turrawan Line Upgrade (N2TLU) involves the upgrade of 35km of track between the Hunter Valley Coal Network and Inland Rail.

The project will be delivered from Narrabri Coal Junction at Whitehaven Coal, south of Turrawan, to the future interface with Inland Rail at Narrabri North.

Works include the replacement of existing steel and timber sleepers with heavy duty concrete sleepers, replacement of the existing rail with upgraded rail, and earthworks.

## SITE ESTABLISHMENT AND MATERIALS DELIVERY

We are delivering materials within the existing rail corridor near Narrabri Junction, Fraser Street and Old Turrawan Road, Narrabri. We will also be setting up a site compound at Narrabri Junction. This work is required for a track upgrade planned for the coming months.

Materials deliveries and site establishment will occur from **Monday 6 March 2023** for approximately three months. Work hours are **7am to 6pm Monday to Friday** and **8am to 1pm Saturday**, weather permitting.

### EQUIPMENT

The equipment to be used will include front end loaders, a grader, drum rollers, semi-trailers, trucks and construction vehicles.

### TRAFFIC CHANGES

If required, traffic control will be put in place in order to minimise any impacts to the community.

## HOW COULD THIS WORK AFFECT YOU?

This work may be noisy and disruptive, however every effort will be made to keep noisy works to a minimum and reduce impacts to the community wherever possible. Some of the measures we may use include turning off equipment when not in use, setting up noise blankets around work sites and using non-tonal ('white noise') reversing alarms on vehicles.

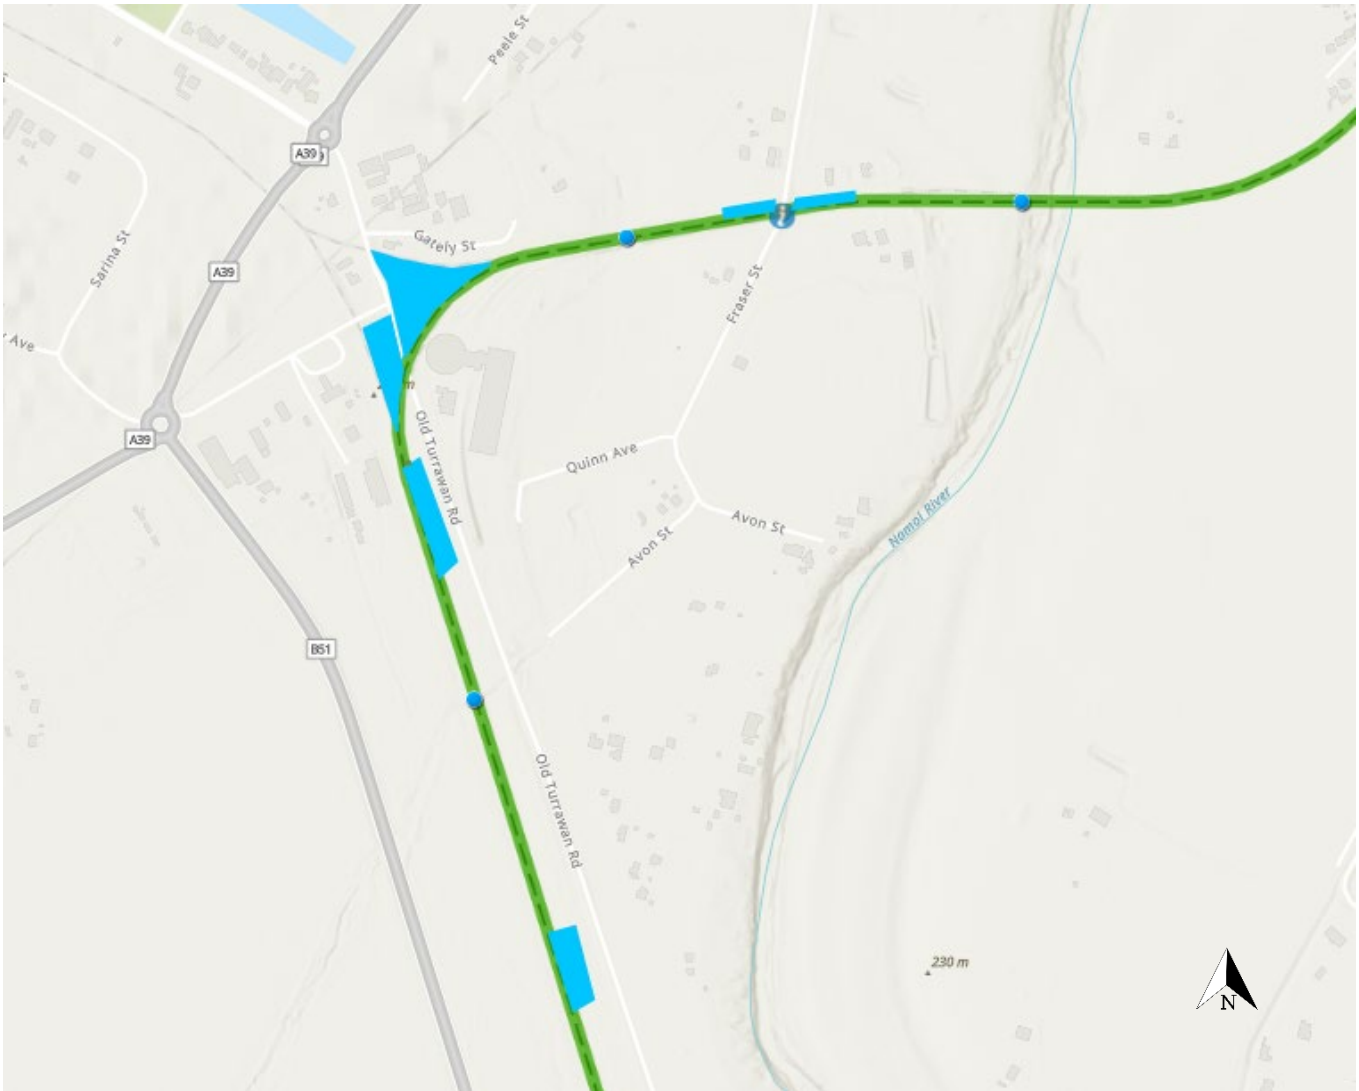

## CONTACT US

To provide feedback about these works, working times, durations or respite measures, **please call our 24-hour Enviroline on 1300 550 402 (mention 'Narrabri to Turrawan')** or by emailing [nswprojects@artc.com.au](mailto:nswprojects@artc.com.au).

You can find out more information about the project and upcoming works by visiting our website [artc.com.au/n2tupgrade](http://artc.com.au/n2tupgrade).
